PART II — OFFERING CIRCULAR

Financial Statement requirements, regardless of the applicable disclosure model, are specified in Part F/S of this Form 1-A.

The Commission encourages the use of management’s projections of future economic performance that have a reasonable basis and are presented in an appropriate format. See Rule 175, 17 CFR 230.175.

The narrative disclosure contents of offering circulars are specified as follows:

- A: For all corporate issuers — the information required by Model A of this Part II of Form 1-A.
- B: For all other issuers and for any issuer that so chooses — the information required by either Part I of Form S1, 17 CFR 239.11, except for the financial statements called for there, or Model B of this Part II of Form 1-A. Offering circulars prepared pursuant to this instruction need not follow the order of the items or other requirements of the disclosure form. Such information shall not, however, be set forth in such a fashion as to obscure any of the required information or any information necessary to keep the required information from being incomplete or misleading. Information requested to be presented in a specified tabular format shall be given in substantially the tabular form specified in the item.

OFFERING CIRCULAR MODEL A.

GENERAL INSTRUCTIONS:

Each question in each paragraph of this part shall be responded to; and each question and any notes, but not any instructions thereto, shall be restated in its entirety. If the question or series of questions is inapplicable, so state. If the space provided in the format is insufficient, additional space should be created by cutting and pasting the format to add more lines.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may have liability to investors. The selling agents should exercise appropriate diligence to determine that no such inaccuracy or incompleteness has occurred, or they may be liable.

INSTRUCTION: The Cover Page of the Offering Circular is a summary of certain essential information and should be kept on one page if at all possible. For purposes of characterizing the Company on the cover page, the term "development stage" has the same meaning as that set forth in Statement of Financial Accounting Standards No. 7 (June 1, 1975).

INSTRUCTION: The Company should avoid generalized statements and include only those factors which are unique to the Company. No specific number of risk factors is required to be identified. If more than 16 significant risk factors exist, add additional lines and number as appropriate. Risk factors may be due to such matters as cash flow and liquidity problems, inexperience of management in managing a business in the particular industry, dependence of the Company on an unproven product, absence of an existing market for the product (even though management may believe a need exists), absence of an operating history of the Company, absence of profitable operations in recent periods, an erratic financial history, the financial position of the Company, the nature of the business in which the Company is engaged or proposes to engage, conflicts of interest with management, arbitrary establishment of offering price, reliance on the efforts of a single individual, or absence of a trading market if a trading market is not expected to develop. BUSINESS AND PROPERTIES

3. With respect to the business of the Company and its properties:

including whether or not a working prototype(s) is in existence. Indicate if completion of development of the product would require a material amount of the resources of the Company, and the estimated amount. If the Company is or is expected to be dependent upon one or a limited number of suppliers for essential raw materials, energy or other items, describe. Describe any major existing supply contracts.

- (c) Describe the industry in which the Company is selling or expects to sell its products or services and, where applicable, any recognized trends within that industry. Describe that part of the industry and the geographic area in which the business competes or will compete.

Indicate whether competition is or is expected to be by price, service, or other basis. Name the principal competitors that the Company has or expects to have in its area of competition. Indicate the relative size and financial and market strengths of the Company's competitors in the area of competition in which the Company is or will be operating. State why the Company believes it can effectively compete with these and other companies in its area of competition.

Note: Because this Offering Circular focuses primarily on details concerning the Company rather than the industry in which the Company operates or will operate, potential investors may wish to conduct their own separate investigation of the Company's industry to obtain broader insight in assessing the Company's prospects.

- (d) Describe specifically the marketing strategies the Company is employing or will employ in penetrating its market or in developing a new market. Set forth in response to Question 4 below the timing and size of the results of this effort which will be necessary in order for the Company to be profitable. Indicate how and by whom its products or services are or will be marketed (such as by advertising, personal contact by sales representatives, etc.), how its marketing structure operates or will operate and the basis of its marketing approach, including any market studies. Name any customers that account for, or based upon existing orders will account for a major portion (20% or more) of the Company's sales. Describe any major existing sales contracts.
- (e) State the backlog of written firm orders for products and/or services as of a recent date (within the last 90 days) and compare it with the backlog of a year ago from that date.

As of ____/____/____ \$ _____
(a recent date)

As of ____/____/____ \$ _____
(one year earlier)

Explain the reason for significant variations between the two figures, if any. Indicate what types and amounts of orders are included in the backlog figures. State the size of typical orders. If the Company's sales are seasonal or cyclical, explain.

- (f) State the number of the Company's present employees and the number of employees it anticipates it will have within the next 12 months. Also, indicate the number by type of employee (i.e., clerical, operations, administrative, etc.) the Company will use, whether or not any of them are subject to collective bargaining agreements, and the expiration date(s) of any collective bargaining agreement(s). If the Company's employees are on strike, or have been in the past three years, or are threatening to strike, describe the dispute. Indicate any supplemental benefits or incentive arrangements the Company has or will have with its employees.
- (g) Describe generally the principal properties (such as real estate, plant and equipment, patents, etc.) that the Company owns, indicating also what properties it leases and a summary of the terms under those leases, including the amount of payments, expiration dates and the terms of any renewal options. Indicate what properties the Company intends to acquire in the immediate future, the cost of such acquisitions and the sources of financing it expects to use in obtaining these properties, whether by purchase, lease or otherwise.
- (h) Indicate the extent to which the Company's operations depend or are expected to depend upon patents, copyrights, trade secrets, know-how or other proprietary information and the steps undertaken to secure and protect this intellectual property, including any use of confidentiality agreements, covenants-not-to-compete and the like.  - (k) Summarize the material events in the development of the Company (including any material mergers or acquisitions) during the past five years, or for whatever lesser period the Company has been in existence. Discuss any pending or anticipated mergers, acquisitions, spin-offs or recapitalizations. If the Company has recently undergone a stock split, stock dividend or recapitalization in anticipation of this offering, describe (and adjust historical per share figures elsewhere in this Offering Circular accordingly).
4. (a) If the Company was not profitable during its last fiscal year, list below in chronological order the events which in management's opinion must or should occur or the milestones which in management's opinion the Company must or should reach in order for the Company to become profitable, and indicate the expected manner of occurrence or the expected method by which the Company will achieve the milestones.

	Event or Milestone	Expected manner of occurrence or method of achievement	Date or number of months after receipt of proceeds when should be accomplished
(1)	_____ _____ _____ _____	_____ _____ _____ _____	_____

(See Question Nos. 11 and 12)

Note: After reviewing the nature and timing of each event or milestone, potential investors should reflect upon whether achievement of each within the estimated time frame is realistic and should assess the consequences of delays or failure of achievement in making an investment decision.

INSTRUCTION: The inquiries under Business and Properties elicit information concerning the nature of the business of the Company and its properties. Make clear what aspects of the business are presently in operation and what aspects are planned to be in operation in the future. The description of principal properties should provide information which will reasonably inform investors as to the suitability, adequacy, productive capacity and extent of utilization of the facilities used in the enterprise. Detailed descriptions of the physical characteristics of the individual properties or legal descriptions by metes and bounds are not required and should not be given.

As to Question 4, if more than five events or milestones exist, add additional lines as necessary. A “milestone” is a significant point in the Company’s development or an obstacle which the Company must overcome in order to become profitable.

OFFERING PRICE FACTORS

If the securities offered are common stock, or are exercisable for or convertible into common stock, the following factors may be relevant to the price at which the securities are being offered.

- 5. What were net, after-tax earnings for the last fiscal year?
(If losses, show in parenthesis.)

Total \$ _____ (\$ _____ per share)

- 6. If the Company had profits, show offering price as a multiple of earnings. Adjust to reflect for any stock splits or recapitalizations, and use conversion or exercise price in lieu of offering price, if applicable.

$$\frac{\text{Offering Price Per Share}}{\text{Net After-Tax Earnings Last Year Per Share}} = \frac{\text{_____}}{\text{(price/earnings multiple)}}$$

- 7. (a) What is the net tangible book value of the Company? (If deficit, show in parenthesis.) For this purpose, net tangible book value means total assets (exclusive of copyrights, patents, goodwill, research and development costs and similar intangible items) minus total liabilities.

\$ _____ (\$ _____ per share)

If the net tangible book value per share is substantially less than this offering (or exercise or conversion) price per share, explain the reasons for the variation.

- (b) State the dates on which the Company sold or otherwise issued securities during the last 12 months, the amount of such securities sold, the number of persons to whom they were sold, and relationship of such persons to the Company at the time of sale, the price at which they were sold and, if not sold for cash, a concise description of the consideration. (Exclude bank debt.)

- 8. (a) What percentage of the outstanding shares of the Company will the investors in this offering have? Assume exercise of outstanding options, warrants or rights and conversion of convertible securities, if the respective exercise or conversion prices are at or less than the offering price. Also assume exercise of any options, warrants or rights and conversions of any convertible securities offered in this offering.)

If the maximum is sold: _____ %
If the minimum is sold: _____ %

- (b) What post-offering value is management implicitly attributing to the entire Company by establishing the price per security set forth on the cover page (or exercise or conversion price if common stock is not offered)? (Total outstanding shares after offering times offering price, or exercise or conversion price if common stock is not offered.)

If the maximum is sold: _____ *
If the minimum is sold: _____ *

* These values assume that the Company’s capital structure would be changed to reflect any conversions of outstanding convertible securities and any use of outstanding securities as payment in the exercise of outstanding options, warrants or rights included in the calculation. The type and amount of convertible or other securities thus eliminated would be: _____. These values also assume an increase in cash in the Company by the amount of any cash payments that would be made upon cash exercise of options, warrants or rights included in the calculations. The amount of such cash would be: \$ _____.

10. (a) If material amounts of funds from sources other than this offering are to be used in conjunction with the proceeds from this offering, state the amounts and sources of such other funds, and whether funds are firm or contingent. If contingent, explain.
- (b) If any material part of the proceeds is to be used to discharge indebtedness, describe the terms of such indebtedness, including interest rates. If the indebtedness to be discharged was incurred within the current or previous fiscal year, describe the use of proceeds of such indebtedness.
- (c) If any material amount of proceeds is to be used to acquire assets, other than in the ordinary course of business, briefly describe and state the cost of the assets and other material terms of the acquisitions. If the assets are to be acquired from officers, directors, employees or principal stockholders of the Company or their associates, give the names of the persons from whom the assets are to be acquired and set forth the cost to the Company, the method followed in determining the cost, and any profit to such persons.
- (d) If any amount of the proceeds is to be used to reimburse any officer, director, employee or stockholder for services already rendered, assets previously transferred, or monies loaned or advanced, or otherwise, explain:
11. Indicate whether the Company is having or anticipates having within the next 12 months any cash flow or liquidity problems and whether or not it is in default or in breach of any note, loan, lease or other indebtedness or financing arrangement requiring the Company to make payments. Indicate if a significant amount of the Company's trade payables have not been paid within the stated trade term. State whether the Company is subject to any unsatisfied judgments, liens or settlement obligations and the amounts thereof. Indicate the Company's plans to resolve any such problems.
12. Indicate whether proceeds from this offering will satisfy the Company's cash requirements for the next 12 months, and whether it will be necessary to raise additional funds. State the source of additional funds, if known.

INSTRUCTION: Use of net proceeds should be stated with a high degree of specificity. Suggested (but not mandatory) categories are: leases, rent, utilities, payroll (by position or type), purchase or lease of specific items of equipment or inventory, payment of notes, accounts payable, etc., marketing or advertising costs, taxes, consulting fees, permits, professional fees, insurance and supplies. Categories will vary depending on the Company's plans. Use of footnotes or other explanation is recommended where appropriate. Footnotes should be used to indicate those items of offering expenses that are estimates. Set forth in separate categories all payments which will be made immediately to the Company's executive officers, directors and promoters, indicating by footnote that these payments will be so made to such persons. If a substantial amount is allocated to working capital, set forth separate sub-categories for use of the funds in the Company's business.

If any substantial portion of the proceeds has not been allocated for particular purposes, a statement to that effect as one of the Use of Net Proceeds categories should be included together with a statement of the amount of proceeds not so allocated and a footnote explaining how the Company expects to employ such funds not so allocated.

In some circumstances, however, disclosure may not be sufficient, and a change of name may be the only way to cure its misleading character.

Item 2. Distribution Spread

- (a) The information called for by the following table shall be given, in substantially the tabular form indicated, on the outside front cover page of the offering circular as to all securities being offered (estimate, if necessary).

	Price to public	Underwriting discount and commissions	Proceeds to issuer or other persons

If the securities are to be offered on a best efforts basis, the cover page should set forth the termination date, if any, of the offering, any minimum required sale and any arrangements to place the funds received in an escrow, trust, or similar arrangement. The following tabular presentation of the total maximum and minimum securities to be offered should be combined with the table required above.

Item 3. Summary Information, Risk Factors and Dilution

- (a) Where appropriate to a clear understanding by investors, there should be set forth in the forepart of the offering circular, under an appropriate caption, a carefully organized series of short, concise paragraphs, summarizing the principal factors which make the offering one of high risk or speculative. Note: These factors may be due to such matters as an absence of an operating history of the issuer, an absence of profitable operations in recent periods, an erratic financial history, the financial position of the issuer, the nature of the business in which the issuer is engaged or proposes to engage, conflicts of interest with management, reliance on the efforts of single individual, or the method of determining the market price where no market currently exists. Issuers should avoid generalized statements and include only those factors which are unique to the issuer.
- (b) Where there is a material disparity between the public offering price and the effective cash cost to officers, directors, promoters and affiliated persons for shares acquired by them in a transaction during the past three years, or which they have a right to acquire, there should be included a comparison of the public contribution under the proposed public offering and the effective cash contribution of such persons. In such cases, and in other instances where the extent of the dilution makes it appropriate, the following shall be given: (1) the net tangible book value per share before and after the distribution; (2) the amount of the increase in such net tangible book value per share attributable to the cash payment made by purchasers of the shares being offered; and (3) the amount of the immediate dilution from the public offering price which will be absorbed by such purchasers.

- 3. If any material amounts of other funds are to be used in conjunction with the proceeds, state the amounts and sources of such other funds.
- 4. If any material part of the proceeds is to be used to discharge indebtedness, describe the terms of such indebtedness. If the indebtedness to be discharged was incurred within one year, describe the use of the proceeds of such indebtedness.

1. No information need be given in answer to this item as to any transaction where:
 - (a) The rates of charges involved in the transaction are determined by competitive bids, or the transaction involves the rendering of services as a common or contract carrier fixed in conformity with law or governmental authority;
 - (b) The transaction involves services as a bank depository of funds, transfer agent, registrar, trustee under a trust indenture, or similar services;
 - (c) The amount involved in the transaction or a series of similar transactions, including all periodic installments in the case of any lease or other agreement providing for periodic payments or installments does not exceed \$50,000; or
 - (d) The interest of the specified person arises solely from the ownership of securities of the issuer and the specified person receives no extra or special benefit not shared on a pro-rata basis by all of the holders of securities of the class.
2. It should be noted that this Item calls for disclosure of indirect as well as direct material interests in transactions. A person who has a position or relationship with a firm, corporation, or other entity which engages in a transaction with the issuer or its subsidiaries may have an indirect interest in such transaction by reason of such position or relationship. However, a person shall be deemed not to have a material indirect interest in a transaction within the meaning of this Item where:

- (a) the interest arises only (i) from such person's position as a director of another corporation or organization (other than a partnership) which is a party to the transaction, or (ii) from the direct or indirect ownership by such person and all other persons specified in subparagraphs (1) through (5) above, in the aggregate, of less than a 10 percent equity interest in another person (other than a partnership) which is a party to the transaction, or (iii) from both such position and ownership;
 - (b) the interest arises only from such person's position as a limited partner in a partnership in which he and all other persons specified in (1) through (5) above had an interest of less than 10 percent; or
 - (c) the interest of such person arises solely from the holding of an equity interest (including a limited partnership interest but excluding a general partnership interest) or a creditor interest in another person which is a party to the transaction with the issuer or any of its subsidiaries and the transaction is not material to such other person.
3. Include the name of each person whose interest in any transaction is described and the nature of the relationships by reason of which such interest is required to be described. The amount of the interest of any specified person shall be computed without regard to the amount of the profit or loss involved in the transaction. Where it is not practicable to state the approximate amount of the interest, the approximate amount involved in the transaction shall be disclosed.
 4. Information should be included as to any material underwriting discounts and commissions upon the sale of securities by the issuer where any of the specified persons was or is to be a principal underwriter or is a controlling person, or member, of a firm which was or is to be a principal underwriter. Information need not be given concerning ordinary management fees paid by underwriters to a managing underwriter pursuant to an agreement among underwriters the parties to which do not include the issuer or its subsidiaries.
 5. As to any transaction involving the purchase or sale of assets by or to any issuer or any subsidiary, otherwise than in the ordinary course of business, state the cost of the assets to the purchaser and, if acquired by the seller within two years prior to the transaction, the cost thereof to the seller.
 6. Information shall be furnished in answer to this Item with respect to transactions not excluded above which involve remuneration from the issuer or its subsidiaries, directly or indirectly, to any of the specified persons for services in any capacity unless the interest of such persons arises solely from the ownership individually and in the aggregate of less than 10 percent of any class of equity securities of another corporation furnishing the services to the issuer or its subsidiaries.

 - (2) Briefly describe potential liabilities imposed on shareholders under state statutes or foreign law, e.g., to laborers, servants or employees of the registrant, unless such disclosure would be immaterial because the financial resources of the registrant are such as to make it unlikely that the liability will ever be imposed.
- (b) If debt securities are being offered, outline briefly the following:
 - (1) Provisions with respect to interest, conversion, maturity, redemption, amortization, sinking fund or retirement.
 - (2) Provisions with respect to the kind and priority of any lien securing the issue, together with a brief identification of the principal properties subject to such lien.
 - (3) Provisions restricting the declaration of dividends or requiring the maintenance of any ratio of assets, the creation or maintenance of reserves or the maintenance of properties.
 - (4) Provisions permitting or restricting the issuance of additional securities, the withdrawal of cash deposited against such issuance, the incurring of additional debt, the release or substitution of assets securing the issue, the modification of the terms of the security, and similar provisions.

Instruction:

In the case of secured debt there should be stated (i) the approximate amount of unbonded property available for use against the issuance of bonds, as of the most recent practicable date, and (ii) whether the securities being issued are to be issued against such property, against the deposit of cash, or otherwise.

- (c) If securities described are to be offered pursuant to warrants, rights, or convertible securities, state briefly:
- (1) the amount of securities called for by such warrants, convertible securities or rights;
 - (2) the period during which and the price at which the warrants, convertible securities or rights are exercisable;

Such financial statements shall be prepared in accordance with generally accepted accounting principles (GAAP) in the United States. If the issuer is a Canadian company, a reconciliation to GAAP in the United States shall be filed as part of the financial statements.

Issuers which are limited partnerships are required to also file the balance sheets of general partners: (1) if such general partner is a corporation, the balance sheet shall be as of the end of its most recently completed fiscal year; receivables from a parent or affiliate of such general partner (including notes receivable, but excluding trade receivables) should be deductions from shareholders equity of the general partner; where a parent or affiliate has committed to increase or maintain the general partner's capital, there shall also be filed the balance sheet of such parent or affiliate as of the end of its most recently completed fiscal year; (2) if such general partner is a partnership, its balance sheet as of the end of its most recently completed fiscal year; (3) if such general partner is a natural person, the net worth of such general partner(s) based on the estimated fair market value of their assets and liabilities, singly or in the aggregate shall be disclosed in the offering circular, and balance sheets of each of the individual general partners supporting such net worth shall be provided as supplemental information.

- (1) **Balance Sheet** — as of a date within 90 days prior to filing the offering statement or such longer time, not exceeding 6 months, as the Commission may permit at the written request of the issuer upon a showing of good cause; for filings made after 90 days subsequent to the issuer's most recent fiscal year, the balance sheet shall be dated as of the end of the most recent fiscal year.
- (2) **Statements of income, cash flows, and other stockholders equity** — for each of the 2 fiscal years preceding the date of the most recent balance sheet being filed, and for any interim period between the end of the most recent of such fiscal years and the date of the most recent balance sheet being filed, or for the period of the issuer's existence if less than the period above.

Income statements shall be accompanied by a statement that in the opinion of management all adjustments necessary for a fair statement of results for the interim period have been included. If all such adjustments are of a normal recurring nature, a statement to that effect shall be made. If otherwise, there shall be furnished as supplemental information and not as part of the offering statement, a letter describing in detail the nature and amount of any adjustments other than normal recurring adjustments entering into the determination of results shown.

(3) Financial Statements of Businesses Acquired or to be Acquired.

- (a) Financial statements for the periods specified in (c) below should be furnished if any of the following conditions exist:
 - (i) A significant business combination has occurred or is probable (for purposes of this rule, this encompasses the acquisition of an interest in a business accounted for by the equity method); or
 - (ii) Consummation of a combination between entities under common control.
- (b) A business combination shall be considered significant if a comparison of the most recent annual financial statements of the business acquired or to be acquired and the registrant's most recent annual consolidated financial statements filed at or prior to the date of acquisition indicates that the business would be a significant subsidiary pursuant to the conditions specified in Rule 405 of Regulation C, 17 CFR 230.405.
- (c)
 - (i) The financial statements shall be furnished for the periods up to the date of acquisition, for those periods for which the registrant is required to furnish financial statements.
 - (ii) These financial statements need not be audited.
 - (iii) The separate balance sheet of the acquired business is not required when the registrant's most recent balance sheet filed is for a date after the acquisition was consummated.
 - (iv) If none of the conditions in the definitions of significant subsidiary in Rule 405 exceeds 40%, income statements of the acquired business for only the most recent fiscal year and interim period need be filed, unless such statements are readily available.
- (d) If consummation of more than one transaction has occurred or is probable, the tests of significance shall be made using the aggregate impact of the businesses and the required financial statements may be presented on a combined basis, if appropriate.
- (e) This paragraph (3) shall not apply to a business which is totally held by the registrant prior to consummation of the transaction.

(4) Pro Forma Financial Information.

- (a) Pro forma information shall be furnished if any of the following conditions exist (for purposes of this rule, "business combination" encompasses the acquisition of an interest in a business accounted for by the equity method):

 - (ii) After the date of the registrant's most recent balance sheet, consummation of a significant business combination or a combination between entities under common control has occurred or is probable.
- (b) The provisions of paragraph (3)(b), (d) and (e) apply to this paragraph (4).
- (c) Pro forma statements shall ordinarily be in columnar form showing condensed historical statements, pro forma adjustments, and the pro forma results and should include the following:

 - (ii) If consummation of the transaction has occurred or is probable after the date of the most recent balance sheet, a pro forma balance sheet giving effect to the combination as of the date of the most recent balance sheet required by paragraph (b). For a purchase, pro forma statements of income reflecting the combined operations of the entities for the latest fiscal year and interim period, if any, and for a pooling of interests, pro forma statements of income for all periods for which income statements of the registrant are required.
